3. Configure AETOS Server	4

MetaTrader 4

1. Download link:

AETOS_Mac_MT4:

https://download.mql5.com/cdn/web/metaquotes.software.corp/mt4/MetaTrader4.dmg?utm_source=www.metatrader4.com&utm_campaign=download.mt4.macos

2. Installation

2.1 Double-click the icon

2.2 Drag it to Application

3. Configure AETOS Server

3.1 3.1 Open MT4, click **File** in the menu bar and then click **open an account**

3.2 Search for **AETOS** in the input box and click **Scan**

3.3 You can choose any one of AETOS server

The image shows the 'MetaTrader 4' window with the 'Authorization' tab selected. It features a yellow padlock icon and the text 'Authorization allows to get access to the trade account'. Below this, there are input fields for 'Login:', 'Password:', and 'Server:'. The 'Server' dropdown is set to 'AETOSMarketsM-Live'. A checkbox labeled 'Save account information' is checked. At the bottom, there are 'Login' and 'Cancel' buttons.

3.4 Click **Next** to complete the AETOS server configuration

The image shows the 'Select account type' dialog box. It has a title bar with three buttons (red, yellow, green). The main text says 'Select account type' and 'To start working an account is required:'. Below this, it says 'To start working, you need a valid trade account. If you don't have it, you can create a demo or real account by selecting the corresponding option below and pressing 'Next':'. There are three radio button options: 'Existing trade account', 'New demo account', and 'New real account'. The 'New demo account' option is selected. Below the 'Existing trade account' option, there are input fields for 'Login:', 'Password:', and 'Server:'. The 'Server' field is set to 'AETOS-Demo'. A checkbox labeled 'Save password' is checked. At the bottom, there are three buttons: '< Back', 'Next >', and 'Cancel'.
